ABOUT THE COLLEGE

The descent of D. D. Jain College of Education, Ludhiana on the educational map of the state in 1999 was a historic event. Realizing that the professional education of teacher is essential for the qualitative improvement of education, the Managing Committee [**S. S. Jain Girls' School Committee (Regd.)**] decided to start a College of Education. The objective of our college is to impart highest level of training to future teachers to keep pace with modernization and globalization. Our college endeavours at harmonious development of the students by providing healthy and congenial atmosphere necessary for their intellectual, moral, aesthetic and physical growth as well as emotional stability. It tends to promote among them high sense of discipline, respect for ethical way of life and Indian tradition and make them responsible, enlightened and useful citizens of the country capable of contributing positively towards the realization of National Goals.

ABOUT THE SEMINAR

There is a worldwide consensus that misuse of narcotics and psychoactive substances is on the rise and India is no exception to this. Drug abuse in India is prevalent. India is sandwiched between the two largest Opium producing regions of the world that is the Golden triangle on one side and the Golden crescent on the other. The golden crescent area includes Pakistan, Afghanistan and Iran. The golden triangle area comprises Thailand, Myanmar, Vietnam and Laos. According to a study by the Delhi Commission for Protection of Child Rights on Substance Abuse by Children, 100 percent of the children in conflict with the law were drug abusers, while 95.5 percent of them staying in child care institutions were on drugs and 93 percent of street children consumed narcotics. The study also states that 88 percent of the children consumed drugs due to peer pressure. While most people think that addicts have a choice, in reality, an addict needs professional help because it is a chronic disorder. Drug addiction not only affects the substance abuser but also impacts families. They go through mental stress, face social consequences and are pushed into financial crisis. June 26 is observed as the International Day against Drug Abuse and Illicit Trafficking to promote a society free of drug abuse. Individuals, communities and various organizations in the world join hands to raise awareness.

To make a positive difference we can contribute to this fight against drug addiction, be a volunteer or donate to nonprofits working to curb drug addiction and help addicts rebuild their lives.

The seminar invites the original (both theoretical and empirical research papers) on the topic **“THE ROLE OF INSTITUTIONS IN DRUG ABUSE PREVENTION”**.
